

Drug and alcohol abuse is more than a disease that controls the life of the addict; it affects the lives of all those associated with the person. For a child of an addicted parent, this is a big deal. We, as three different children of alcohol/drug addicted parents, are here to tell our real life stories, the stories of how we personally have struggled with our parents' addictions. Be prepared to walk away with a better understanding of the effects addiction can have on teens, from a teen point of view.

Includes the following short films:

Dear Stranger By Sami Mulienburg

Breaking the Cycle By Andrea Roldan

Love You, Hate Your Addiction By Monica Olsson

This project is supported by King County's Alcohol and Other Drug Prevention Program, with funds from the State of Washington DSHS Division of Alcohol and Substance Abuse.

Reel Grls empowers young women from diverse communities to realize their power, talent, and influence through media production.
